## DS-D4212FI-CWF/III Full-Color LED Display

DS-D4212FI-CWF is the new generation small pixel pitch indoor full-color LED display. LED video wall features in seamlessness, high brightness/contrast, wide viewing angle, and accurate color restoration, achieving good visual effect. It is widely used in places such as monitoring center, command center, conference room, report hall, and exhibition hall.

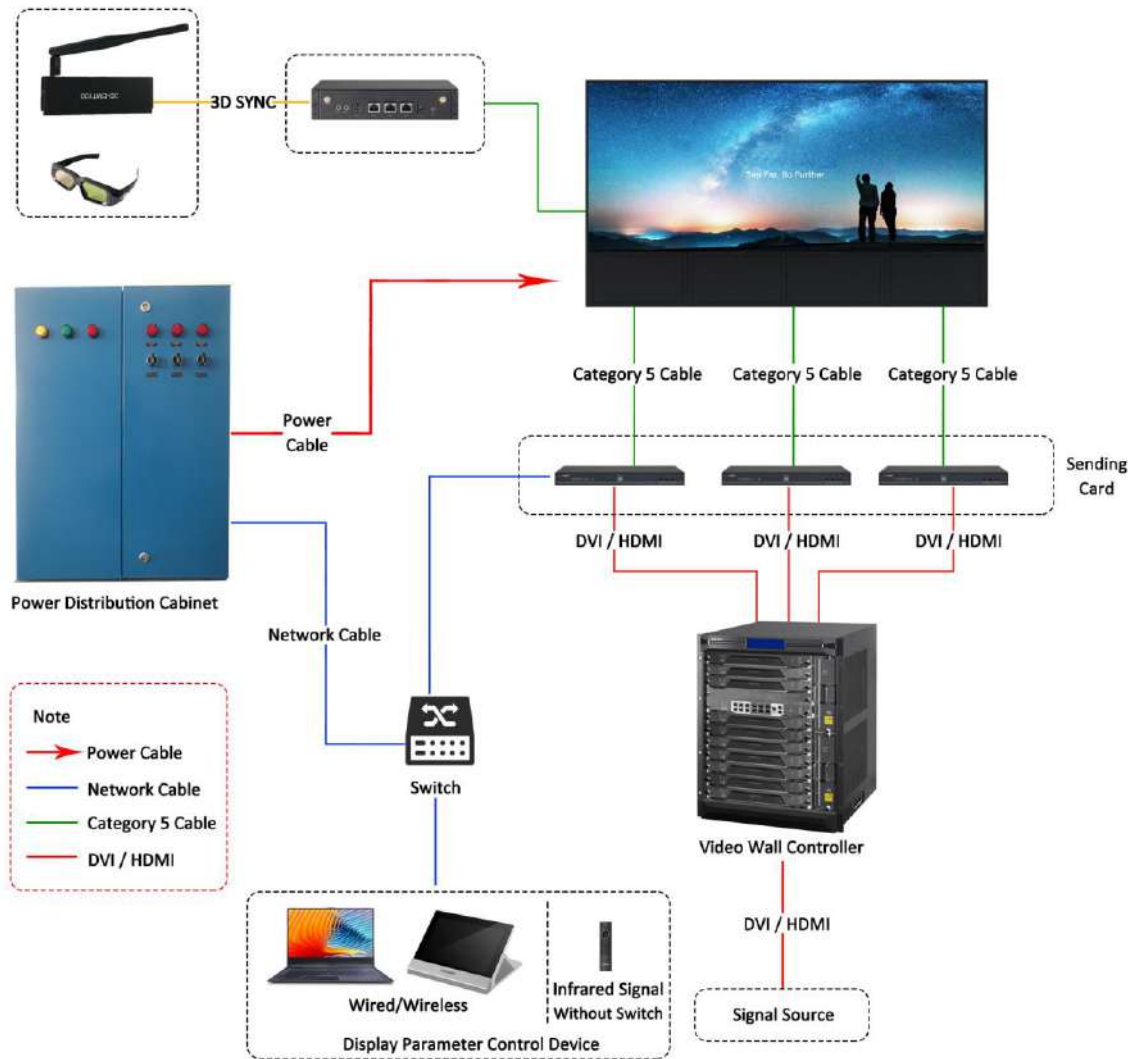

- Seamlessly splice images in rows and columns.
- Easily form standard 1920 × 1080 and 3840 × 2160 screens, achieving high definition dot-by-dot display.
- Automatically adapt signal sources to screens without the help of a video processing equipment.
- Easily optimize images with low resolution by improving definition, contrast and saturation with Pix Master technology.
- Dynamically enhance image parameters such as contrast, sharpness, saturation, color temperature and gamut to get the image more vivid.
- A signal input of 4K resolution at 30 Hz, and an output of up to 4K resolution for a single device.
- Use the buttons on the panel of sending card to adjust brightness and switch signal.
- Use the Hikvision remote control (optional) to navigate through menu after access to the multi-functional card.
- Automatically remove moisture to protect lamp boards from water damage when the device is kept in a humid environment or left unused for a long time.
- Back up signals and power supplies (optional) to maintain a reliable system.
- Real-time cabinet temperature and voltage checking to guarantee product safety.
- Use the sending card to input HDMI, DVI, and DP signals.
- Network interface output.
- Remote configuration via the debugging network interface.
- Easy to disassemble lamp board, power supply, and receiving card on the front side with modular unit structure.
- Precise fool-proof design of lamp boards with magnetic adsorption to prevent wrong installation.
- Three-axis XYZ structure designed to perfectly adjust the flatness of the entire screen.
- Rapidly eliminate bright and dim lines with no need of professional equipment or operations.

## DS-D4215FI-CWF/III Full-Color LED Display

DS-D4215FI-CWF is the new generation small pixel pitch indoor full-color LED display. LED video wall features in seamlessness, high brightness/contrast, wide viewing angle, and accurate color restoration, achieving good visual effect. It is widely used in places such as monitoring center, command center, conference room, report hall, and exhibition hall.

- Seamlessly splice images in rows and columns.
- Easily form standard 1920 × 1080 and 3840 × 2160 screens, achieving high definition dot-by-dot display.
- Automatically adapt signal sources to screens without the help of a video processing equipment.
- Easily optimize images with low resolution by improving definition, contrast and saturation with Pix Master technology.
- Dynamically enhance image parameters such as contrast, sharpness, saturation, color temperature and gamut to get the image more vivid.
- A signal input of 4K resolution at 30 Hz, and an output of up to 4K resolution for a single device.
- Use the buttons on the panel of sending card to adjust brightness and switch signal.
- Use the Hikvision remote control (optional) to navigate through menu after access to the multi-functional card.
- Automatically remove moisture to protect lamp boards from water damage when the device is kept in a humid environment or left unused for a long time.
- Back up signals and power supplies (optional) to maintain a reliable system.
- Real-time cabinet temperature and voltage checking to guarantee product safety.
- Use the sending card to input HDMI, DVI, and DP signals.
- Network interface output.
- Remote configuration via the debugging network interface.
- Easy to disassemble lamp board, power supply, and receiving card on the front side with modular unit structure.
- Precise fool-proof design of lamp boards with magnetic adsorption to prevent wrong installation.
- Three-axis XYZ structure designed to perfectly adjust the flatness of the entire screen.
- Rapidly eliminate bright and dim lines with no need of professional equipment or operations.

## DS-D4225FI-CWF/III Full-Color LED Display

DS-D4225FI-CWF is the new generation small pixel pitch indoor full-color LED display. LED video wall features in seamlessness, high brightness/contrast, wide viewing angle, and accurate color restoration, achieving good visual effect. It is widely used in places such as monitoring center, command center, conference room, report hall, and exhibition hall

- Seamlessly splice images in rows and columns.
- Easily form standard 1920 × 1080 and 3840 × 2160 screens, achieving high definition dot-by-dot display.
- Automatically adapt signal sources to screens without the help of a video processing equipment.
- Easily optimize images with low resolution by improving definition, contrast and saturation with Pix Master technology.
- Dynamically enhance image parameters such as contrast, sharpness, saturation, color temperature and gamut to get the image more vivid.
- A signal input of 4K resolution at 30 Hz, and an output of up to 4K resolution for a single device.
- Use the buttons on the panel of sending card to adjust brightness and switch signal.
- Use the Hikvision remote control (optional) to navigate through menu after access to the multi-functional card.
- Automatically remove moisture to protect lamp boards from water damage when the device is kept in a humid environment or left unused for a long time.
- Back up signals and power supplies (optional) to maintain a reliable system.
- Real-time cabinet temperature and voltage checking to guarantee product safety.
- Use the sending card to input HDMI, DVI, and DP signals.
- Network interface output.
- Remote configuration via the debugging network interface.
- Easy to disassemble lamp board, power supply, and receiving card on the front side with modular unit structure.
- Precise fool-proof design of lamp boards with magnetic adsorption to prevent wrong installation.
- Three-axis XYZ structure designed to perfectly adjust the flatness of the entire screen.
- Rapidly eliminate bright and dim lines with no need of professional equipment or operations.

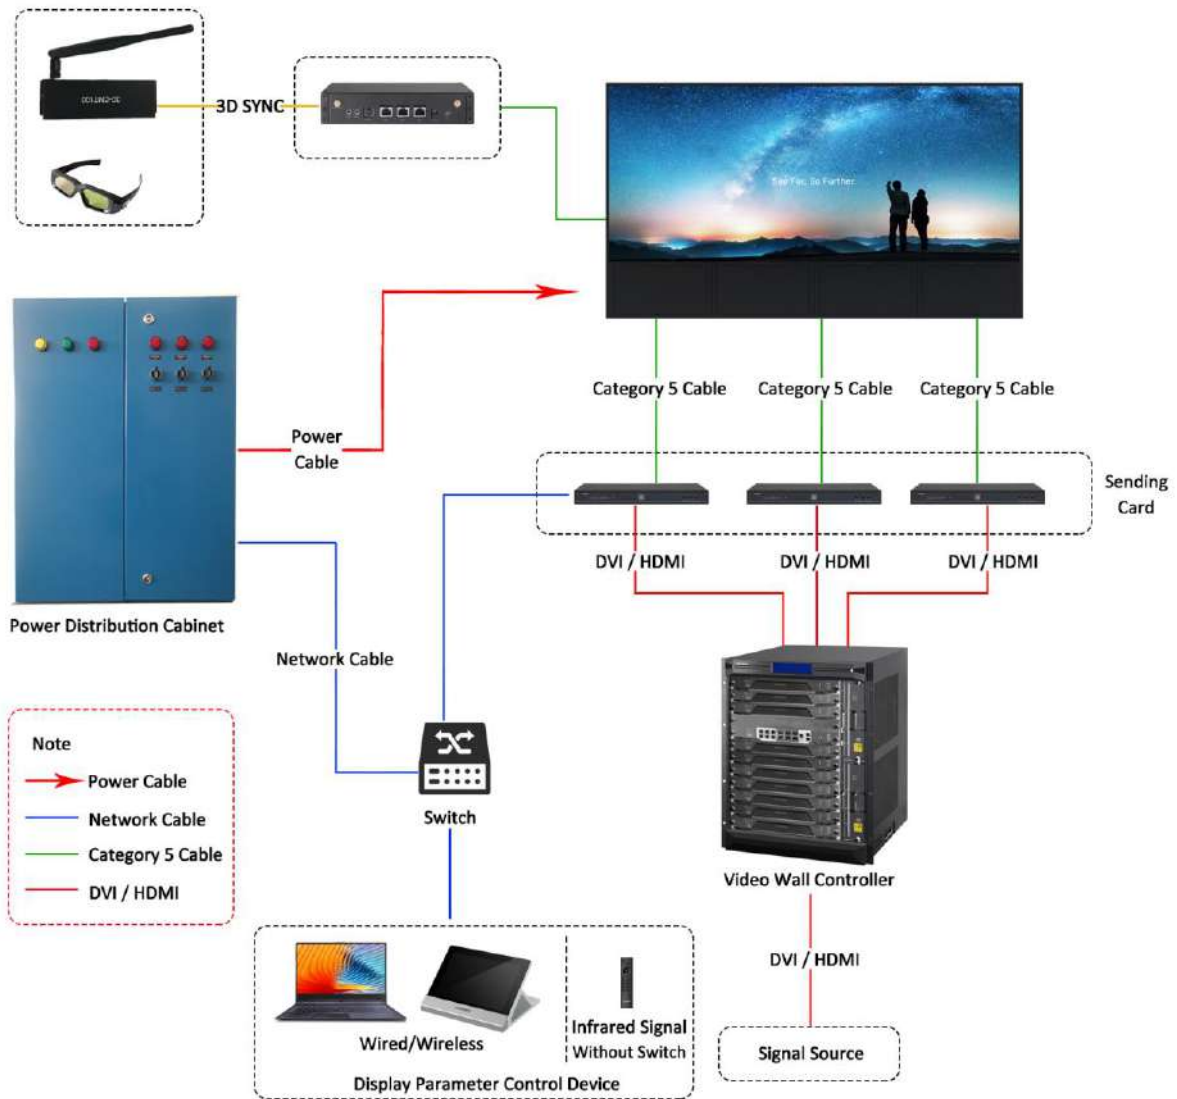

## ▪ Specification

| Model                         |                               | DS-D4225FI-CWF/III                                    |
|-------------------------------|-------------------------------|---|
| <b>Cabinet</b>                | Pixel Configuration           | SMD Triad LED   |
|                               | Pixel Pitch Category          | P2.5  |
|                               | Pixel Pitch                   | 2.48 mm   |
|                               | Modules Component             | 2 × 4   |
|                               | Dimensions (W × H × D)        | 600 mm × 337.5 mm × 50.9 mm (23.62" × 13.29" × 2.00") |
|                               | Resolution                    | 240 × 136   |
|                               | Area                          | 0.2025 m <sup>2</sup>                                 |
|                               | Weight                        | 5.4 Kg (11.9 lb)                                      |
|                               | Pixel Density                 | 161185 dots/m <sup>2</sup>                            |
|                               | Lamp Board Housing            | With housing  |
|                               | Cabinet Material              | Magnalium   |
|                               | Maintenance Method            | Front maintenance for all components                  |
|                               | Cabinet Flatness              | 0.1 mm  |
|                               | Protection Level              | Front protection level IP60                           |
| <b>Display</b>                | White Balance Brightness      | 800 cd/m <sup>2</sup>                                 |
|                               | Color Temperature             | 3000 K to 10000 K adjustable                          |
|                               | Viewing Angle                 | Horizontal 160°, vertical 160°                        |
|                               | Contrast Ratio                | ≥ 5000:1  |
|                               | Color Uniformity              | ≤ ± 0.003Cx, Cy                                       |
|                               | Brightness Uniformity         | ≥ 97%   |
| <b>Processing Performance</b> | Driving Method                | Constant current driving                              |
|                               | Frame Frequency               | 60 Hz   |
|                               | Refresh Rate                  | Up to 3840 Hz   |
|                               | Grey Level                    | Up to 16 bit  |
|                               | Display Color                 | 281 trillion  |
| <b>Power</b>                  | Power Supply                  | 110~220 VAC ± 15%                                     |
|                               | Max. Consumption              | ≤ 375 W/m <sup>2</sup>                                |
|                               | Average Consumption           | < 125 W/m <sup>2</sup>                                |
| <b>Working Environment</b>    | Working Temperature           | -10-40 °C   |
|                               | Working Humidity              | 10%~80% RH  |
|                               | Storage Humidity              | 10%~80% RH  |
|                               | Storage Temperature           | -20~60 °C   |
| <b>General</b>                | Gross Weight                  | 9.6 Kg (21.2 lb)                                      |
|                               | Package Dimension (W × H × D) | 796 mm × 484 mm × 192 mm (31.33" × 19.05" × 7.56")    |
|                               | Lifespan                      | Lamp 100,000 hours                                    |

▪ Typical Application

▪ Dimension (unit: mm)

## ▪ Accessory

DS-D42C08-H

DS-D42C04-H

## ▪ Available Model

- DS-D4225FI-CWF 600 × 337.5 mm/3<sup>rd</sup> Cabinet
- DS-D4225FI-CHF/A 3<sup>rd</sup> Cabinet Lamp Board
